Chemtron Corporation is a fully permitted, part B, state-of-the-art hazardous waste processing facility located in Avon, Ohio. Since its inception in 1972, Chemtron has consistently provided sound environmental services to its clients. Today, Chemtron continues to service industry types including: automotive, chemical, medical, government and many others. All services offered by Chemtron meet or exceed government regulations.

Highlights of Chemtron Corporation include the following:

- Ability to accept and process a variety of waste types
- Fully licensed and permitted by the US EPA and Ohio EPA
- Fully insured and financially strong
- A transportation group offering an array of transport services (including drum pick-up)
- An emergency response group providing services to both the government and private industry
- An on-site laboratory employing EPA analytical methods for waste characterization
- Training services on EPA and DOT regulation and safety and hazard awareness
- State-of-the-art waste tracking and processing capabilities

Body Shop Chemical Waste Solutions

- Turnkey service specially designed for the auto body industry
- All waste is properly processed and recycled
- Pick up service provided on an as-needed basis
- Routine contact from the client service department
- Furnished paperwork includes manifests, labels and more
- No fees to initiate service
- Toll-free hotline to answer your environmental questions or to arrange for service
