

Comprehensive Healthcare Waste Management

One Company. One Source. One Solution.

Consider the surprising savings a Total Environmental Waste Management Program can offer.

Chemtron has perfected a single-source waste management model which can simplify your operation, optimize your regulatory compliance and significantly reduce your waste management expenditure. Only Chemtron has the unique cost saving advantage of offering you such a complete and comprehensive range of essential waste management services. Chemtron works with you to find the most environmentally responsible disposition for all your waste.

- ❖ Hazardous & Non-Hazardous Waste Management
 - Pharmaceutical
 - Lab Packing

Pharmaceutical Disposal.

Now there's a simple, compliant solution. At Chemtron, we help you stay ahead of the regulatory curve and stay in compliance. What's more, we culture your staff to manage waste the right way. We manage it all. You stay in compliance. Easy for doctors and nurses.

Safe and simple. *Because if it's not simple, it won't work.*

Start Enjoying Single-Source Savings! Our single-source solution adds up to substantial savings for you. We are an EPA-approved, fully-permitted, hazardous waste facility. We own and operate all of our services. Pick up, dispose, recycle - we do it all! And Chemtron manages all manifests, profiles, labeling and disposal, and compiles the information you'll need for year-end reporting.

Call Chemtron today at **440.933.6348** or contact us at **info@chemtron-corp.com**. Start enjoying single-source savings and priceless peace of mind.
